2

Child Neurology Foundation: Family and Clinician Support

Resources:

- Respite Care Notebook
- Transition of Care Toolkit
- Seizure Action Plan
- New Visit Toolkit

Programs

- Child & Family Support
- Education
- Research and Care Advancement

CHILD & FAMILY SUPPORT

Focused on improving the patient care experience through direct engagement, social services, and partnership with care professionals

EDUCATION

Focused on creating clarity for families and providers through the collection and dissemination of trustworthy information about managing diagnosis, care, and life with a neurologic condition

RESEARCH & CARE ADVANCEMENT

Focused on supporting providers and institutions who care for children with neurologic conditions by building bridges across the neurologic care community
